From the RE's Desk

The biggest excitement coming up is the Aloha State Games on June 9. Entry forms are available at 7-11 stores.

March's wheel to wheel race went off without a hitch. We had our usual top drivers and their finely prepped cars out for a great day of racing. A new addition to the day's activities was having the Solo I cars go out for timed laps between the racing cars. It is a nice complement to fill in the blank spot during the day.

June's wheel to wheel race is scheduled to be a spectator race. We still need lots of help in getting this event off the ground. If you want to help in organizing please contact me.

Electron Marathon

We had a fantastic time working with Hawaiian Electric and the various high schools in the racing segment of the Electron Marathon. Eight high schools participated and all were able to complete the one hour marathon. Some of the cars ran out of

power or broke but all were able to get going again. We had two driver's meetings and the drivers responded well to our flagging for a safe event.
