

For Sale

Merlyn Mk 29

Formula Ford

This is the car that was formerly owned and raced by Steven Lee in Solo II and road races. Merlyns were the fastest Formula Ford chassis of their day. This car has the proven potential of taking FTD's in Solo II and consistently out ran the other Formula Fords at the road races. The design of this chassis make it simple and easy to maintain. This car had NO DNF's ever during its 3 year racing history in Hawaii.

Many original and valuable components make this car highly desirable for investors and vintage enthusiasts. (The components are worth considerably more than the asking price of the car!)

A partial listing of components:

Upated Formula Ford 1600 engine with polished block

Hewland Mk 9 racing transmission

Inboard rear disc brakes

Adjustable front shocks

New custom fuel cell with custom aluminum tank

New fire system

Left foot break pedal

Rev limiter

Custom trailer (compact and light weight)

In addition, this car comes with a complete set of almost new (used only once) driver's equipment: fire suit, gloves, helmet, shoes, etc. If you would like to experience the thrill of driving a formula car at a price that can't be beat, call Steven Lee at **262-8050**.

\$4,900

Includes complete car, trailer, driver's equipment and start-up support.
