HELP WANTED

The workday scheduled for 8 September includes an afternoon of tracktime for all the workers that show-up by 8:00. A track and the timer will be setup after the work is done and every one will have an opportunity to run 'til their tires melt or the sun sets, which ever happens first. Contact ROGER AU to make arrangements for entry to the base.

EDITORS NOTES

Don't be alarmed if you did not receive a pass with your HUILA. Your name will be on the base access list for the event. Be sure to bring a picture ID.
