

Edward Kemper III Volunteer of The Month

By: Lindsey Akamu, RE

A club such as ours cannot exist without the numerous volunteers that are necessary to make it worthwhile for all of the members. Every month I plan to highlight one of our members that makes the Sports Car Club of America, Hawaii Region an active and fun club to be with. This month's volunteer spotlights on Edward Kemper III.

Ed Kemper is our assistant regional executive. He has held this position through at least three regional executives. Ed has been a member of SCCA since the early Seventies and has always been active in the organizational aspects of the club. Ed also functions as our chief steward, safety steward, and Solo I and Solo II steward. Ed has been the main proponent in the Aloha State Games. He was instrumental in getting autocross listed as an event.

Ed is a lawyer by profession, as a partner with Kemper & Watts, Attorneys at Law. He handles all of the club's legal requirements, making sure that we abide by the rules of a non-profit organization and we don't put ourselves in any legal entanglements.

Ed participates in most of our events. He used to race a Mercury Capri then switched over to a Ford Mustang, which he still races in wheel to wheel competition. Ed has raced his BMW 325 in Solo II events and sometimes shows up in his bright red Panthera.

Ed In Action In His BMW 325is

Ed lives in Kailua with his wife, and has two grown children. He works out at the gym and jogs regularly.

We appreciate all the time and effort Ed puts toward the club. We know that we can always rely on his sound judgement.
