

FEBRUARY SOLO II

The February 21, 1982 Solo II at TH-3 came within a hair's breadth of being rained out. The January Solo II was completely rained out. When everybody arrived for the February event the upper half of the track was soaked and the lower half was damp. At about 10 a.m. it was decided to lay out the course and run cars through it to dry out the track. Although the cars ran through the course, it was really the sun coming out that dried things. Finally, at noon the first group of cars took off.

Because of the rain only 25 cars raced. As usual, the B Prepared class was the most popular (6 entries). Stephan Ma (Toyota Corolla) took first in class and fourth in the overall standings. Andy Chan (Toyota) and Don Simpson (Datsun) were second and third respectively. E stock was also popular (3 entries) with Jerry Disney (Triumph Spitfire) winning over Stephan Gertwig (TR3) and Richard Duvoisin (Sunbeam). The fastest time of the day went to Bob Vincent (Em Corvette) over Bruce Adams in his somewhat unhealthy Porsche turbo.

In a real surprise Curtis Lee in a C stock 240Z took first in his class and third overall. Ed Bell's BMW racer finished second overall by beating Vravvt Mani and Raliegth Ferdun (both in Fiats) in D modified. In D stock Frank Saling in a TR4 just beat (3/20ths of a second) Norman Brown in his Datsun 280ZX. In the ladies class Janice Braumer (Triumph Spitfire) triumphed over Linda Shaw driving the same make of car. Last but not least, Leon Seto (Monza) in the American car class (F stock) edged out Ed Kemper (Buick Skylark) for the win.

Hopefully the March event will be a dry one. Racing with your windshield wipers on is no fun!

ED KEMPER
