SCCA HAWAII REGION NEWSLETTER

February 1994

From the RE's Desk

Thanks to everyone who made the January Solo II happen. By all reports, it was a super event. Also a special thanks to all of the Corvette owners who attended, and an invitation to come back again on a regular basis.

I returned to Hawaii just in time to make the final preparations for the February Race and Driver's School. I'm happy to report it was a great success. All of our drivers drove well and our workers did an excellent job of operating the race. The most outstanding worker of the event was Walt Driver who handled communications in the tower. This was Walt's first time in this position, and I'm sure everyone would agree that by the end of the weekend, he sounded like an old pro. Great job Walt!

Speaking of the race, isn't it amazing that Bob Sato was able to blow the engine in Art Sonen's

240Z right at the start-finish line where Art was sitting? Bob always seems to know how to put on a good show.

Some people have asked about the Long Beach Grand Prix. Last year some of us went over to work the race. Cal Club does require that you are an experienced worker, and that you have worked races this year. If you are interested please call me or Paul Schwartz, and we'll try to set you up.

Those interested in Solo I should contact me or Lindsey Akamu, so that we can start to firm things up. We need at least six drivers to make it happen. Let's do it!
