

FROM THE RE'S DESK

I am looking forward to an exiting and action packed 1992. The most significant change will be the expansion of our program to include wheel to wheel racing. I know it's been a long time coming but it's finally here and we have our first race and drivers' school scheduled this spring. This is a very big step for our club and I'd like to see everyone get involved. You don't have to be a driver to be a part of the action. Why not come out and help us run the race? We'll be happy to train you in any of the specialties necessary for staffing a racetrack. Don't just sit on the sidelines. Racing is more fun if you're part of it. It might even give you the inspiration you need to buy a car and join the drivers.

Some of our members have expressed concern that wheel to wheel racing may mean that less time and effort will go into our Solo program. I want to assure everyone that this will not happen. We have a strong, successful Solo program and will continue to do everything possible to continue to improve it.

if you want to get involved in the racing program or just want to talk about the club, please give me a call.
