SCCA HAWAII REGION NEWLETTER

JULY 1992

FROM THE RE's DESK

We have a new chief tech inspector for our Solo II. **Bill Gibson** has decided to concentrate his driving efforts on wheel-to-wheel racing, and has volunteered to be tech inspector for the Solo program. He is a professional mechanic, and has driven his Datsun 510 in our solo events for several years. Thanks, Bill, we are very fortunate to have such a qualified person for this position.

The British Car Club will host a road rally on July 26. Our own **John Shrum**, rally master, has assured me that the event will be fun for everyone. Food, music, and prizes will be waiting at the end of the rally. This is a great way to spend the day, and all

profits will go to the Special Education Center of Hawaii. The event starts at 9:00 a.m. at the Stadium Mall. Contact **John Shrum**, 235-1221, for more information.

If you have been waiting for the chance to race wheel-to-wheel at Hawaii Raceway Park, come to our event on August 1 and 2. Join the fun as a driver or worker. The more drivers we have, the more exiting the racing will be.

M.G. Lewis
Regional Executive
Hawaii Region

RACING UPDATE

Our first regional race will be held on the weekend of August 1st and 2nd, and it looks like we will see some exciting competition from a diverse field of cars. Saturday will be devoted to a driver's school and we will race on Sunday. We need drivers and workers, so come out and help

our event become a success. Rental race cars are available for both events. Contact **M.G. Lewis** for details of the event, 625-8255. Remember, this is a non-spectator event and everyone who attends should be prepared to help.
