SKIP BARBER SCCA SHOOTOUT RESULTS

This event was held on the .9 mile road course at Hawaii Raceway Park. The participants had about an hour and a half of highly informative classroom time with BILL CLUTTER, Chief Instructor for the SKIP BARBER RACING SCHOOL and a few laps behind Mr. Clutter in identical Mondial Formula Fords to get a feel for the cars and the line. After a lunch break and a trackside briefing the drivers went out for over half an hour of hot-laps to dial in the line and their new driving techniques. Then, after putting three of the originally six cars out of commission with some very creative driving, the race was on. It consisted of six timed laps per driver with the fastest four totaled for the times and placings now. In all fairness to the drivers of the # 5 car, it must be said that it didn't seem to be quite as "identical" as the others. All in all everyone had a great time and congratulations to the top four finishers who will receive \$400, \$200, \$100 and \$50 in order of finish. The fastest timed lap of 44.883 seconds was posted by MIKE KOJIMA.
