

(Continued from page 3)

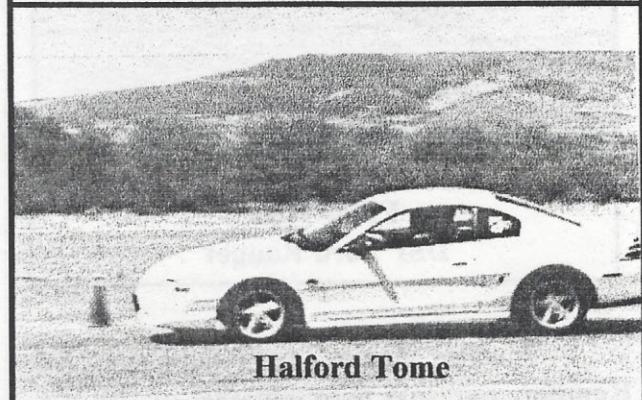

To leave off on an interesting note.....**Halford Tome** got about 7 runs due to timing malfunctions. However, this malfunction only affected Halford's car. Hmmmm.....Hal, wanna share some of your secrets? In any case, October's autocross was one of good humor. Remember, our fund-raising project is still up and going, so if you are hungry or thirsty come to the trailer for some refreshments. See you at the races!

## Did You Know...

The Hawaii Region of the SCCA is a member of the Southern Pacific Division (SPDiv). Each month in *SportsCar*, our national publication, Michael Cavette covers events from our division in his column *Way Out West*. Last month, October, The Hawaii Region got a rare mention. He reported on our July Solo I and Regional Race. I wrote him to ask why our region and members are not often mentioned. His response was obvious—because no one ever tells him what our club is doing! He suggested that we e-mail him with the results from our major events, or about other interesting and unique things and people in the Hawaii Region. Curtis Lee's recent trip to the Solo II National event is a perfect example of this. He invited all members to e-mail him at: <tinkerbelle@earthlink.net>
