

ADS P100 POWER.

The ADS P100 uses digital technology to deliver 100 watts continuous power. The Power Plate meets the FTC and IHF home component standards for its claimed performance. Built-in equalization achieves the best possible bass performance with different types of speakers. Protection circuitry for both the amplifier and the speakers assures reliability without sonic compromise. The compact, functional shape of the P100 takes little room and facilitates mounting.

Considering its high power output, bass equalization and clean sound, the P100 is an outstanding example of State-of-the-Art performance.

You owe it to yourself to visit us and listen to the P100. Hear how ADS Automotive Components earned their reputation for quality and pace setting performance.
