

FROM THE RE'S DESK

So many things are happening now in our sport, its hard to know where to begin. In September alone, we have a Solo I, a Solo II and the Skip Barber/Hawaii Road Racing Association races. Last months Solo II went very well and as **Larry Anderson** is continuing to fine-tune his worker coordination, I expect the next event to be even better. (That is if the R.E. remembers gas for the generator.) The next event will have an all new track, so come early.

We continue to make progress on our wheel to wheel racing program. I met with Jim McCashin, SCCA Executive Steward, recently and he gave me a verbal OK to use Hawaii Raceway Park(HRP) for regional racing. We are training our workers at the Skip Barber series and the SCCA mainland officials are being very helpful. Now if we could only get our drivers ready, we'd be racing. I'll be calling a meeting sometime in October for drivers, workers and anyone interested in wheel to wheel racing. Please attend so that we can share information and make some real progress.

Representatives from all aspects of motorsport met last week with the developer who's improving HRP. His message was that the new improvements are only the first step and we will eventually have a new world class facility. This is the kind of positive attitude we need for motorsports in Hawaii to have a bright future and he deserves our support.

Finally, I'd like to say a special thanks to **Art Megallones** for all his help in setting up the track last month and to **Amy Lee** for staying so late to help with the fun runs. Thanks again.

M.G. LEWIS
Regional Executive,
Hawaii Region SCCA
